

§ 301.86–2

Plant Protection and Quarantine. The Plant Protection and Quarantine program of the Animal and Plant Health Inspection Service, United States Department of Agriculture.

Quarantined area. Any State or portion of a State designated as a quarantined area in accordance with the provisions in § 301.86–3.

Regulated article. Any article listed in § 301.86–2 or otherwise designated as a regulated article in accordance with § 301.86–2(i).

State. The District of Columbia, Puerto Rico, the Northern Mariana Islands, or any State, territory, or possession of the United States.

[72 FR 51984, Sept. 12, 2007, as amended at FR 19381, Apr. 29, 2009]

§ 301.86–2 Regulated articles.

The following are regulated articles:

(a) Pale cyst nematodes.²

(b) The following pale cyst nematode host crops:

Eggplant (*Solanum melongena* L.)

Pepper (*Capsicum* spp.)

Potato (*Solanum tuberosum* L.)

Tomatillo (*Physalis philadelphica*)

Tomato (*Lycopersicon esculentum* L.)

(c) Root crops.

(d) Garden and dry beans (*Phaseolus* spp.) and peas (*Pisum* spp.).

(e) All nursery stock.

(f) Soil, compost, humus, muck, peat, and manure, and products on or in which soil is commonly found, including grass sod and plant litter.

(g) Hay, straw, and fodder.

(h) Any equipment or conveyance used in an infested or associated field that can carry soil if moved out of the field.

(i) Any other product, article, or means of conveyance not listed in paragraphs (a) through (h) of this section that an inspector determines presents a risk of spreading the pale cyst nematode, after the inspector provides written notification to the person in possession of the product, article, or

²Permit and other requirements for the interstate movement of pale cyst nematodes are contained in part 330 of this chapter.

7 CFR Ch. III (1–1–11 Edition)

means of conveyance that it is subject to the restrictions of this subpart.

[72 FR 51984, Sept. 12, 2007, as amended at 74 FR 19381, Apr. 29, 2009]

§ 301.86–3 Quarantined areas.

(a) *Designation of quarantined areas.* In accordance with the criteria listed in paragraph (c) of this section, the Administrator will designate as a quarantined area each field that has been found to be infested with pale cyst nematode, each field that has been found to be associated with an infested field, and any area that the Administrator considers necessary to quarantine because of its inseparability for quarantine enforcement purposes from infested or associated fields. The Administrator will publish the description of the quarantined area on the Plant Protection and Quarantine Web site, http://www.aphis.usda.gov/plant_health/plant_pest_info/potato/pcn.shtml. The description of the quarantined area will include the date the description was last updated and a description of the changes that have been made to the quarantined area. The description of the quarantined area may also be obtained by request from any local office of PPQ; local offices are listed in telephone directories. After a change is made to the quarantined area, we will publish a notice in the FEDERAL REGISTER informing the public that the change has occurred and describing the change to the quarantined area.

(b) *Designation of an area less than an entire State as a quarantined area.* Less than an entire State will be designated as a quarantined area only if the Administrator determines that:

(1) The State has adopted and is enforcing restrictions on the intrastate movement of the regulated articles that are equivalent to those imposed by this subpart on the interstate movement of regulated articles; and

(2) The designation of less than the entire State as a quarantined area will prevent the interstate spread of the pale cyst nematode.

(c) *Criteria for designation of fields as infested fields and associated fields.* (1) *Infested fields.* The Administrator will designate a field as an infested field
